

DESCRIPTION

DP to DVI cables provide a simple solution for computers configured with extended desktop or mirrored monitors. Simply plug in the DisplayPort to DVI cable to your computer (DP output) and monitor (DVI input). And with support for video resolutions up to 1080P, you can enjoy movies on your large monitor at home. The gold-plated connectors provide strong signal performance ensuring no delays. Ideal for home, office, and conference. Note: It can only convert signal from DisplayPort to DVI.
