Front of receiver

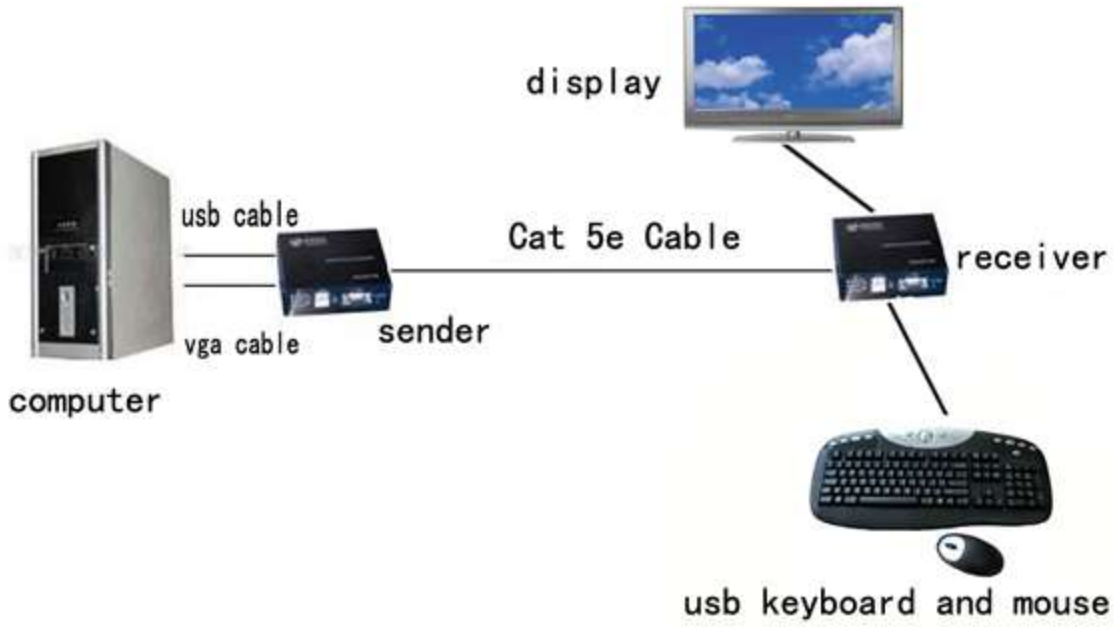
Rear of receiver

Features and Benefits:

- It provides a KVM port on the Sender
- Use the single cable (CAT5,CAT5E,CAT6),the cost is inexpensive
- It supports (USB port) keyboard and mouse, it supports (VGA) port monitor
- It can remove and insert the local and remote keyboard and mouse
- Power on computer use the educational keyboard and mouse
- It supports USB system
- The remote keyboard and mouse display is in real-time
- The anti-jamming is strong
- Cascade operation for increasing the distance

Application chart:

The product includes a Sender and a Receiver it can extend the keyboard of the computer， mouse and video port max of 300m.



paramenter:

Size:	110mmx110mmx30mm
Weight:	0.55KG
input connector:	HD15PIN（VGA）
output connector:	HD15PIN（VGA）
local output:	HD15PIN（VGA）
bandwidth:	300MHz(-3 dB)
	0-10MHz +0.1dB
	0-130MHz +6dB to -0.8 dB
input level range:	0.5-2.0Vp-p
input level error:	less than 3mV
input impedance:	75Ω
output impedance:	75Ω
echo ullage:	-30dB@5MHz
Max DC compensation:	±5mV-0
SNR:	60dB
Connector standard:	HDB15， USB,RJ45
Video standard:	VGA， SVGA， XGA， SXGA， UXGA， LCD
Cable standard:	CAT5， CAT5E， CAT6 UTP
Power adapter:	DC9-12V/1A
operational temperature:	-25℃~+70℃
deposited temperature：	-40℃~+80℃
relative humidity:	0~95%（non-condensing）
MTBF:	>30000 hours
